e-AGE 2015

5th International Platform on Integrating
Arab e-Infrastructure in a Global Environment
Casablanca, Morocco, 7-8 December, 2015

What is e-AGE all about?

Integrating Arab e-infrastructure in a Global Environment, e-AGE, is an annual international event organized by the Arab States Research and Education Network, ASREN. e-AGE is in line with ASREN's major objectives related to creating awareness, promoting R&E collaboration and joint activities and establishing human networks in order to facilitate collaboration and cooperation among researchers and academicians in the Arab region and the rest of the world.

e-AGE is meant to be the launching pad for R&E connectivity and cooperation. It brings together the stakeholders and the region's foremost innovators, leaders, scientists, and businesses to discuss and debate new models of innovation, integration of R&E networks, policies for sustainable development in education, means of knowledge sharing and dissemination, capacity building programs, and region-wide e- infrastructure deployment to tackle today's crises in climate change, global economy, food, water scarcity, alternative energy, and environmental issues. The e-Infrastructures are evolving in the Arab region at both national and regional levels as more than 15 Arab countries now have NREN in place or starting their NREN. At the regional level, ASREN announced the operation of the Arabian Global Educational Open PoP (AGE-OP) in London Telicity in cooperation with GEANT Association, Ankabut announced the operation of the first Arab Global Educational Open Exchange AGE-OX in Fujairah in cooperation with Internet2.

It is the time now for e-AGE 2015 to pay more attention to users, applications, services and inclusion of stakeholders in research and education and related services to enable and to facilitate collaboration to encourage resources and knowledge sharing. We will facilitate discussion and more sessions, panels, meetings and workshops to present and exchange research and education experience and innovations. Access to resources, services and applications will be another area of focus during the conference. In short words, e-AGE 2015 is coming with "Revealing and Harvesting Knowledge" as the main theme of the conference and all activities will be centered on it.

Why to get involved?

e-AGE 2015 will provide leading international Education and ICT vendors, suppliers, and service providers with a great opportunity to establish valuable contacts with the local, regional, and international communities. Through sponsorship and exhibition, Sponsoring Vendors and Contributors will have the right connections and exposure to the emerging market of e-Infrastructure connectivity and applications in the Arab world. In the event, you will meet with ICT experts, policy and decision makers, heads of stakeholder institution and international organizations, experts of e-Infrastructure of the Euro-Mediterranean, Pan-Arab, Africa, Asia, and North American regions, academia and researchers, and high level representatives from the League of Arab States, UNESCO, UNDP, European Commission and USAID.

Exhibitors and Sponsors

During e-AGE 2015, exhibitors and sponsors representing leading Telecom, education, and ICT services providers and suppliers are invited to demonstrate their latest products and services. It will represent a central meeting point for participants and an opportunity to meet vendors and corporate institutions. e-AGE 2015 offers sponsorship packages at different levels with many benefits for a high profile recognition.

Extra Exposure

The sponsors for e-AGE 2015 will have the exposure to AROQA 7th annual conference entitled "Patterns of Education and Related Quality Standards" which is organized by the Arab Organization for Quality Assurance in Education (AROQA).
