WHAT IS e-AGE?

Integrating Arab e-infrastructure in a Global Environment, e-AGE, is an annual international conference organized by the Arab States Research and Education Network. e-AGE supports ASREN's major objectives that are related to dissemination and awareness, promotion of research collaboration and joint activities, and establishment of research networks in the Arab region and worldwide.

e-AGE is a launching pad for Research and Education connectivity and

cooperation. It brings together ASREN, EUMEDCONNECT, AfricaConnect, GÉANT, AfREN and INTERNET2 stakeholders and the region's foremost innovators, leaders, scientists, and businesses to discuss and debate integration of research and education networks and region-wide e- infrastructure deployment to support research in addressing today's most pressing problems in climate change, food and water scarcity, renewable energy, and environment.

MORE INFORMATION

e-AGE19

e-AGE19 IS COMING WITH “GROUNDBREAKING RESEARCH AND EDUCATION NETWORKS” AS THE MAIN THEME OF THE CONFERENCE AND ALL ACTIVITIES ARE CENTERED ON IT.

e-AGE19 will be held in Abu Dhabi, UAE during 11 - 12 December 2019 with a focus on demonstrated successes in using research and education e-Infrastructures and a need for interoperable high speed networks at national, regional and international levels.

Renowned speakers and experts are invited to give presentations and participate in panel discussions on latest developments of e-Infrastructures and applications, different aspects of research and education networks, telecommunication technologies, and more.

The following events will be organized during e-AGE19:

- e-AGE Annual Conference
- The 12th Event on Euro-Mediterranean e-Infrastructure
- The 9th annual shareholders meeting of ASREN
- EUMEDCONNECT3 Project meeting
- AfricaConnect2 Project meeting
- Internet2 Middle East SIG Meetings
- Workshops dedicated fore-Infrastructure users

PURPOSE OF THIS CALL

CALL FOR PAPERS & POSTERS

Scientists, researchers and educators are invited to submit full papers reporting on their original and unpublished research in e-Infrastructures and computational and data-intensive sciences. Paper contributions are accepted in English and should not exceed 8000 words.

Each paper should include:

1. Author(s) First name, Last name, Institution, Address, Email, and Short biography.
2. Abstract with no more than 500 words and 7 keywords that refer to the paper's key subjects.

All papers will be peer-reviewed by three reviewers for relevance, quality and originality of research. Authors will need to submit their manuscripts in MS-Word, following ASREN template's format for publishing purposes of the conference proceedings.

Posters are also welcomed. Featuring a poster at e-AGE will serve as an excellent advertisement for your work, and can act as a great conversation starter with e-AGE participants.

CALL FOR PRESENTATIONS

Renowned speakers and experts are also invited to give presentations and participate in panel discussions on latest developments in e-Infrastructure services and application areas, various aspects of R&E networks, telecommunications technologies and the Internet, industry and research case studies of e-Infrastructure use.

CALL FOR PARTICIPATION

Representatives from academia, research, industry, telecom organizations, NRENs, and governments are invited to participate in e-AGE19 to share experiences and exchange knowledge in a wide of topics relevant to e-Infrastructure and services.

TOPICS OF INTEREST

Topics of interest include, but not limited to:

- Scientific computing and data-intensive e-Science in areas related to energy, environment, health, climate, water, agriculture, biology, economy, medicine, as well as in social sciences and humanities.
- Perspectives on NRENs, including challenges, operation, sustainability, funding, governance, business models, security and services.
- Problem-solving environments, Virtual Research Environments, Science Gateways and collaborative tools, applications and services.
- Education and e-Learning Technologies, access to educational resources, repositories, libraries and contents, cloud, grids, parallel and distributed computing, and high performance computing.
- Internet technologies and trends, Internet of Things, Security, SDN and AAI.
- Artificial Intelligence tools, deep learning, big data, and open science platforms.
